

OrthoLegal Propels Orthopaedic Surgeons to New Heights With Explosive Growth and Expanded Services

MARINA DEL REY, Calif. — In just its second year of operation, OrthoLegal; a premier QME management company founded by Orthopaedic Surgeon Alexis E. Dixon, MD, FAAOS; has not only achieved explosive growth but has also evolved beyond its initial focus, emerging as a comprehensive provider of medicolegal services

for California Orthopaedic Surgeons. Formerly recognized as Orthopaedic Qualified Medical Evaluators, this rebrand marks a significant evolution in the organization's commitment to delivering excellence and a wider array of medicolegal services.

“We aspire to redefine QME management by providing superior services at industry-standard rates,” states Dr. Dixon, the CEO and founder. “Our stellar support staff, coupled with a focus on building a supportive community, distinguishes us from the rest. Unlike investor-driven models, we preserve autonomy and community for our physicians, fostering financial freedom. Our workflow, designed for maximal efficiency, reflects my own experience in maintaining a busy QME practice alongside clinical duties. We’re excited to share this system with our colleagues.”

OrthoLegal's Journey to Excellence

1. **Rapid Growth and Expansion:** What began as Orthopaedic Qualified Medical Evaluators has burgeoned into a dynamic force with over 40 offices strategically positioned throughout California. Serving 37 dedicated physicians, OrthoLegal has become synonymous with excellence and efficiency in the realm of musculoskeletal evaluations.
2. **Focus on Musculoskeletal Industrial Injuries:** OrthoLegal's focus on musculoskeletal industrial injuries sets it apart, ensuring that every office is meticulously designed for Orthopaedic examinations, a key factor in the company's success.
3. **Exemplary Care and Results:** OrthoLegal's commitment to providing the highest quality

services is reflected in the success stories of its physicians. A significant increase in evaluations, accelerated report submissions, and newfound enthusiasm among QMEs underscore the company's dedication to delivering tangible results.

4. **Comprehensive Medicolegal Services:** While OrthoLegal was initially established to guide Orthopaedic Surgeons through the intricacies of QME work, its services have expanded to include the Department of Labor and nonindustrial personal injury work. The company's motto, “Quality, On-Time Reporting,” now extends beyond QME evaluations to encompass a broader spectrum of medicolegal expert witness work.
5. **Expert Team Expansion:** Recognizing the diverse needs of musculoskeletal specialists, OrthoLegal has welcomed other experts, including neurosurgery spine specialists, plastic and reconstructive hand surgeons, and pain specialists. This expansion enhances the company's ability to address a wider range of medicolegal challenges.
6. **Unparalleled Service to Physicians:** OrthoLegal stands out for its unwavering commitment to service, prioritizing the needs of physicians in ways not previously seen in the industry. The company's ethos revolves around supporting Orthopaedic Surgeons in their medicolegal endeavors, facilitating growth, and maximizing income potential.

OrthoLegal is not just a QME management company; it is a catalyst for the success and growth of Orthopaedic Surgeons seeking additional income through medicolegal services. As the company continues to redefine industry standards, its impact resonates not only in the realm of QME evaluations but also in broader medicolegal expert witness work.

About OrthoLegal

OrthoLegal is a dynamic QME management company that has rapidly evolved to provide comprehensive medicolegal services for California orthopaedic surgeons. With a focus on musculoskeletal injuries and a commitment to “Quality, On-Time Reporting,” OrthoLegal is a trusted partner for physicians seeking excellence in their medicolegal practices.
